PROFESSIONAL EXPERIENCE

University of North Carolina at Charlotte

Graduate Assistant – Ad Operations & Digital Marketing

Charlotte, NC

Oct 2025 – May 2026

- Managed **campaign trafficking workflows** and maintained accurate **campaign trackers, naming convention documentation**, and performance logs to ensure consistent reporting standards across marketing initiatives.
- Pulled and compiled **weekly performance reports** (CTR, CPA, engagement metrics) using **Google Sheets and Power BI**; applied pivot tables and XLOOKUP to surface trends, outliers, and actionable insights for leadership.
- Identified and flagged **campaign delivery issues and pacing discrepancies** promptly; coordinated with team members to resolve and document resolutions in **Confluence**.
- Researched and evaluated **new ad operations tools and platforms**; contributed process improvement recommendations that streamlined campaign setup and reduced manual workflow steps.

Intellipath Software Solutions Pvt. Ltd.

Digital Marketing Executive

Bangalore, India

Aug 2023 – Jun 2024

- Trafficked and **QA'd digital ad campaigns** across Google Ads, Meta, LinkedIn, and Twitter Ads – setting up **audience segments, geo-targeting, frequency caps, and bid strategies** prior to each launch.
- Monitored **live campaign pacing and delivery** daily, identifying creative rejections and performance discrepancies; performed **bid adjustments, creative rotation, and placement exclusions** to keep campaigns on target.
- Compiled **daily and weekly performance reports** tracking CTR, CPA, and ROAS using **Google Sheets** (pivot tables, VLOOKUP); automated data cleanup processes to accelerate reporting turnaround.
- Coordinated with creative teams to **gather and organize ad assets**, verified all spec requirements were met before launch, and maintained trafficking sheets aligned with team naming standards.
- Conducted **A/B tests** on ad copy and creatives, improving PPC conversion rates by **15%**; documented test learnings to inform future campaign strategy.
- Additional Responsibility* – Used **HTML, CSS, JavaScript, and Bootstrap** to build and troubleshoot campaign landing pages, improving site responsiveness and resolving creative rendering issues.

Yesh Fans & Appliances Limited

Ad Marketing Executive

Himachal Pradesh, India

Jun 2022 – Jul 2023

- Set up and managed **Google Ads and Facebook Ads campaigns** end-to-end – configuring targeting parameters, monitoring KPI performance, and conducting **bid optimizations** to maximize channel profitability.
- Generated **2,000+ leads in 8 months** through coordinated email and paid campaigns; tracked funnel metrics and produced performance digests to inform campaign adjustments.
- Coordinated with designers to **produce and organize ad creatives**, ensuring assets met platform specifications before trafficking; maintained campaign documentation for audit and review.
- Conducted **competitor analysis and market research** to optimize targeting strategy and seasonal ad messaging, contributing to a **20% uplift in website traffic** over 6 months.

PROJECTS

Multi-Channel Ad Campaign Management – Freelance — *Google Ads, Meta Ads, Trafficking, Reporting*

- Trafficked and launched **paid search and social campaigns** for multiple small business clients, handling full setup including audience targeting, geo parameters, bid strategies, and creative asset coordination.
- Delivered **weekly performance reports** (CTR, CPA, ROAS) via Google Sheets with visualizations; recommended and executed optimizations including placement exclusions and creative rotation that reduced cost-per-click.

End-to-End Analytics & Reporting Framework — *GA4, Google Tag Manager, Power BI, Google Sheets*

- Implemented **Google Analytics (GA4) and Google Tag Manager** across web properties to capture campaign attribution data and connect ad spend directly to revenue outcomes.
- Built a **Power BI reporting dashboard** consolidating data from multiple ad platforms, enabling daily monitoring of pacing, delivery, and KPI performance with automated data refresh.

Campaign Workflow & Process Documentation — *Jira, Confluence, Miro, SOP Development*

- Designed and documented **end-to-end ad operations workflows** in Confluence and Miro, covering campaign setup, QA checklists, naming conventions, and asset intake processes to standardize team execution.
- Structured task management in **Jira** with defined statuses, team attributes, and a knowledge base, reducing campaign launch errors and improving cross-functional coordination.
